### ***DIDN'T YOU KNOW ABOUT THIS?***

The Ann Arbor IMA has Meals-on-Wheels on the second Saturday of every month from 10:30 to 12:00. If you are interested in joining the party, contact ***Evan Scarbrough*** at [eascarbrog@gmail.com](mailto:eascarbrog@gmail.com). Ideas for possible community service for the future are definitely welcome and will be considered!

Check out our website:

ann Arbor](http://www.imamichigan.org/ann Arbor)

The **CSCA**™ (Certified in Strategy and Competitive Analysis) is a specialty credential designed specifically for CMAs\*, which complements and expands upon the strategic planning and analysis skills developed through the CMA® (Certified Management Accountants) certification.

This credential will help you master the concepts and techniques that are required to earn a seat at the leadership table and become a key player in driving the strategic planning process at your organization.

### **CMA Prep**

Cleary University will be offering **preparation classes** for the *Certified Management Accountant (CMA)* Exam at its Livingston campus. See <http://www.cleary.edu/cma/> for more details.

### **News of Interest**

Contact me, Chris, at my email below if you have ideas for the newsletter. We always are interested in adding to the board of directors, too.

## **January Speaker #1: John Warren**

Corner Health Center, Ypsilanti, MI

The CHC offers a full range of health care, mental health and supportive services for young people as they transition to adulthood. John Warren is the current CFO.

At the Corner, they offer a full range of health care, mental health and supportive services for young people as they transition to adulthood. Corner staff—including physicians, nurses, psychiatrists, social workers, nutritionists and health educators—are well versed in young people's unique needs. They provide our services to young people regardless of their insurance status or ability to pay for care.

Topic:

Bitcoin is a decentralized digital currency that enables instant payments to anyone, anywhere in the world. Bitcoin uses peer-to-peer technology to operate with no central authority: transaction management and money issuance are carried out collectively by the network. It has massively increased in value over the last year.

## **January Speaker #2: Josh Budde**

Computer Security Specialist

Josh Budde is a tinkerer, business owner, woodworker, and system administrator. He's worked on systems from 80's era DOS machines compiling extremely specific versions of embedded programming languages all the way up to the newest on demand scaling infrastructures from the minute (DNA sequencing machines) to big data being crunched across dozens of machines. He spends his non-work hours volunteering at the Corner Health Center as a board member, fiddling in his workshop, and trying to keep his wife and dog reasonably satisfied.

Topic:

Accounting departments across the country are under constant pressure to meet deadlines and keep things on track. Computer hackers and other bad actors use that pressure and psychological tricks to take companies to the cleaners. I will be presenting the history of these schemes, how they work, and simple tips on keeping yourself and your companies out of hot water.
